

Engineering a digital roadmap to success with SAP Business One

SAM Engineering & Trade Co. Ltd. is an Amman-based solution provider for industrial efficiency seekers, most notably within the mining, fertilizer, water, energy and hospitality sectors. When the company set out to design a roadmap for digital transformation, they chose SAP Business One and the implementation specialists at SkyTech to provide them with greater efficiency from automation, lightning-fast tax and financials reporting, complete process oversight and a reinvigorated sense of confidence among business partners. SAM has truly engineered a path to present and future success.

Before: Challenges and Opportunities

- Seeking to optimize time management and increase overall efficiency
- Searching for the right ERP to facilitate the company's digital transformation
- Striving to modernize processes and augment the company's data visibility

Why SAP Business One and SkyTech

- Solution provides a digitalization roadmap with complete data visibility and cutting-edge analytics
- Solution offers a reliable, integrated platform with accurate real-time data for better decision-making
- Partner deemed to have provided "state-of-the-art support" throughout and following implementation

After: Value-Driven Results

- Time-savings and improved time management
- Full process oversight and monitoring thanks to automated reporting dashboards
- One-click reporting and streamlined tax compliance processes
- Accurate, real-time data for better decision-making
- Greater confidence from business partners due to implementation of world-renown SAP brand

“With the power of SAP Business One and the oversight and cutting-edge analytics it provides, we can say that we are drawing the roadmap of our future safely.”
